

## Grade 2 Sample Lesson Plan: Nutrition, Physical Activity, and Health Promotion

### Objectives/Goals

- Students will demonstrate a good understanding of recommended nutrition, physical activity and hygiene principles.

### Steps

Following are a few activity ideas and resource inks

## Nutrition

- Utilize the [www.choosemyplate.gov](http://www.choosemyplate.gov) resources including resources of the My Plate Kids Place <https://www.choosemyplate.gov/kids>.
- Implement the Serving Up My Plate – A Yummy Curriculum for Grades 1-2 [http://www.fns.usda.gov/multimedia/tn/sump\\_level1.pdf](http://www.fns.usda.gov/multimedia/tn/sump_level1.pdf).
- Provide images for students to cut out to “prepare a healthy meal, ” ensuring that all food groups are represented.
- Have students describe how each food group helps the heart and body.
- Describe food safety practices that keep foods safe from germs (e.g., washing, refrigeration, separation from meats and fats).
- Have students write a story about how their family and friends influence their food choices.
- Ask students to keep a record of all the foods they eat in a day and compare their log to the *My Plate* recommendations.

## Physical Activity

- Ask students to review the activity cards at <http://www.cdc.gov/bam/activity/cards.html> and identify activities that they might like to try as they grow up.
- Discuss everyday activities that provide physical activity (e.g., walking, cleaning up, skipping rope, riding a bicycle, kicking a ball).
- Have the students set goals to limit daily screen time and to increase two of these activities and keep a log of how much time they engaged in it over a week-long timeframe.
- Incorporate physical activity into classroom activities using various instant recess, brain breaks, and energizers.

## Other

- Have students wear smocks to protect their clothing; place a small amount of hypoallergenic washable paints on students hands and involve them in selected activities (e.g., greeting and shaking hands with classmates, opening doors and cabinets) to enable a discussion of how the paint transfers from the student to other people and other surfaces in the same way that germs do.
- Discuss and practice hand washing and covering coughs as a way to prevent the transmission of germs and communicable diseases.

## Assessment Idea

- Evaluate student completion of class activities or worksheets and student participation in discussion and activity.
